

There have been several incidents at Super Saver in the last several weeks that have their store management concerned. Several students have been down behind the building smoking. There has been physical damage to the building, and there has been damage to items that have been left outside the building. There has always been a good relationship between Kirn and Super Saver, and we would like this to continue.

Several changes are going to occur, first there is going to be more supervision in the area by Super Saver by staff and the Police Officer. Second Super Saver has stated that if any student is caught causing damage to the building or grounds they will be arrested/banned from the property. In our efforts to help solve these problems we would like to ask for help from those families that pick your children up at Super Saver.

Please assist by actively supervising your children while they are on the Super Saver property. We also ask that students and their families report any suspicious behavior or vandalism that you observe at Super Saver by contacting Kirn Middle School at 328-6454.
